

Home Learning Ideas

Week Beginning 15th June

Below are some activities for you and your child to have a go at together. As always, Tweet or email to let us know how you get on and feel free to email me if I can help in any way.

Traditional Tales

This half term, our Traditional Tale is 'The Three Billy Goats Gruff'. Watch it or read it together and talk about the story afterwards. You can find your own versions online but here is another one for you to try (I loved this when I was a child!):

[Watch here!](#)

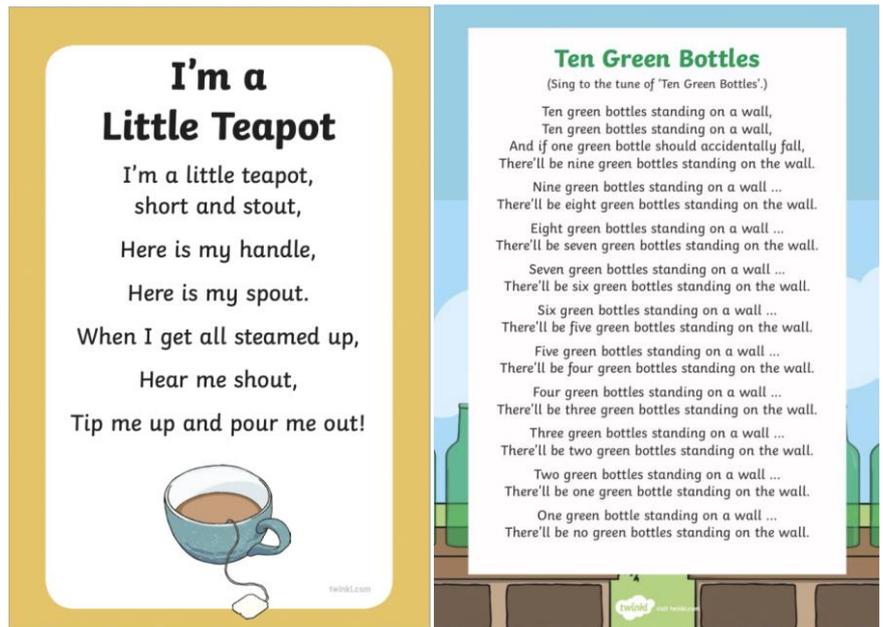

Challenge

How is it the same/different to the version you watched last week?

(MR/L/S/R)

Rhymes of the Month

For June, our rhymes are: 'I'm a Little Teapot' and, our counting rhyme, 'Ten Green Bottles'.

(L/R/N/MM)

RML

This half term in Nursery, we learn our letter sounds, using the same reading scheme as Bridgtown Primary, which is [Read Write Inc. Phonics](#) (follow the link to find out more).

We learn one new sound a day and you can support your child to do this at home by clicking on the following link (please note the video for each sound is available for 24 hours only):

(L/R/W)

Home Learning Ideas

Week Beginning 15th June

Obstacle Course

Build a simple course using things from your home/garden. Include:

- *something to run around
- *something to crawl under
- *something to climb over
- *something to jump off

Explain to someone in your family what you have to do to get around the course. Can they do it too?

(Remember to be careful and make sure you're using the equipment safely!)

Challenge

Get someone to count while you do one lap of the course. How quickly can you do it? Can you keep practising and improve your time?

(MR/U/S/MH/HSC/SSM)

Skittles

Collect some plastic bottles and ask someone to write numbers between 1 and 10 on them. Roll a ball (scrunch up a piece of paper if you haven't got a ball) at the skittles and see how many you can knock over.

What numbers are on the skittles you've knocked over?

(N/MH).

2D Shapes

Have a go at this online game to help you learn to recognise and name four of the 2D shapes.

[Play here!](#)

Challenge

If you know all of the shapes above, have a go at this 2D shapes pattern game.

[Play here!](#)

(SSM/T)
